Muhammad Fathur Alief C

Informatics Student at Politeknik Negeri Banyuwangi | Java & HTML
| Data Management & Administration
Jember, Jawa Timur, Indonesia

Ringkasan

I am an Informatics student at Politeknik Negeri Banyuwangi with a strong foundation in programming languages such as Java and HTML, coupled with practical professional experience in data management and financial administration. My unique background allows me to bridge technical IT skills with administrative precision. I have a proven track record of successfully managing large volumes of statistical databases at Badan Pusat Statistik (BPS) and maintaining financial data accuracy in a large-scale corporate environment at PT. Indosat Tbk. Currently, I am highly focused on completing my formal studies to further develop my professional career. I am eager to apply my technical and data processing skills to solve real-world problems in the tech industry.

Pengalaman

Badan Pusat Statistik
Data Entry Assistant
Juni 2023 - Agustus 2023 (3 bulan)
Banyuwangi

1. Managed and processed large volumes of statistical data with strict deadlines for public data projects.
2. Verified documents and ensured the high validity of field data through meticulous database management.
3. Maintained high standards of confidentiality and security for public data information in accordance with BPS standards.
